

MORNING APPEAL.

Tuesday.....February 8 1887.

THE ARTESIAN WELL QUESTION.

A correspondent writing from Carson to the Enterprise against the artesian well bill makes a series of statements regarding wells which cannot be substantiated. He says that over 100 wells in this county are flowing and all the water will not irrigate an acre. This is wholly untrue. Senator Stewart has a well sunk only 130 feet which supplies 54,000 gallons a day. The writer has one that is only 70 feet deep and flows 10,000 gallons a day. A flow of 16 gallons a minute on Mr. Cagwin's land in this city and there are dozens of other which flow 10,000 gallons a day. The statement made in the Enterprise by the anonymous correspondent are wholly misleading. If he can make any showing of facts against the well bill why does he not go before the Irrigation Committee and prove his wild assertions. He seems opposed to irrigation schemes of all kinds and claims that the proposition of damming ravines is bad because dams break and endanger life and property. A man of this kind would object to the erection of bridges because bridges are sometimes washed away and loss of life results.

GRADING PUBLIC LANDS.

Notice was given yesterday in the Assembly of a bill to appoint a commission to grade the public lands of Nevada. The present law fixes the price of all lands at \$1.25 an acre, and as the lands in this State are widely different in quality it would seem that a graded price would be better for all concerned. Certainly the meadow land and sagebrush land accessible to water ought not to be sold for \$1.25 when the State could in time realize \$5, and barren mountain land not worth over 25 cents an acre will never sell for \$1.25. The land question is one of great importance in this State and a properly appointed commission of good, practical men could so grade the lands that the State could realize the best possible price for good land and get rid of the poor land at any price.

The Lottery Gouge.

The Louisiana Lottery Drawings may be squarely conducted, as claimed, but there is one circumstance that has always struck us as being exceedingly queer, and contrary to the laws of chance. We know of one locality where, in the course of two years, over 1,200 tickets (coupons) were held. These should have drawn 25 prizes, but, instead of drawing their proportion, they drew but four—three of them small approximation prizes. We know of another locality where, in the same period, over 5,000 tickets were held. These should have drawn over 100 prizes, but, as far as we know, they drew but 25, mostly small approximation prizes; they may have drawn a few that we do not know of, but not many. We know of many similar cases, enough, in fact, to base calculations on, and in no case within our knowledge has any number of tickets drawn its proportion of prizes, that is, one in 49. The laws of chance are, in the long run, inexorable, and we think that our observations have been extensive enough to warrant the belief that, if squarely conducted, the proportion of prizes to tickets held would be much larger than it has been.—Ex.

Nevada should have a lottery of her own, on the square.

State Library.

Mr. Logan, of ours, has introduced into the Assembly a bill relative to the State Library. It provides that the State Board of Education shall constitute a Board of Directors for the State Library. Should this bill pass it will take away from the next Lieutenant Governor the duties of Librarian. The friends of the bill urge as reasons for its passage, that to a certain extent it takes the Library out of politics; it provides that, by and with the approval of a majority of the members of the Supreme Court, this Board may exchange old books or buy new books; it also makes it the duty of this Board to appoint a clerk of the Library to hold office at their will and pleasure, at a salary not to exceed one

hundred dollars per month. Placing the Library in the hands of a competent board, such as the Board of Education, it is claimed, will preclude the possibility of a repetition of the "library muddle" that has existed for the two years past.—Tribune.

—The Democratic Administration has again declared that the Carson Mint must go. In 1888 the people of the United States will declare that the Democrats must go.—Reno Journal.

The Muzwumps have gone.

—The Eureka Sentinel always speaks of the APPEAL as "an exchange." The attention of the editor is called to the fact that the name of this paper is very plainly printed at the top.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. Royal Baking Powder Co., 106 Wall St., N. Y.
